

Special Features:

Movable Sprayer:

Innovative brass spray nozzle easily adjusts to whichever wheel is in use - no pausing to change your setup!

Undermount Water Tank Filtration System:

No bucket needed! This patent-pending filtration system keeps your pump clean and lengthens the life of your machine - all while staying discreetly hidden.

Built-in Extras:

Adjustable, pre-installed magnifying lense and light fixture make your space ready-to-use.

Variable Speed Motor:

This patented one horsepower variable speed motor allows for 100% torque.

GRINDING & POLISHING

6" TRIM SAW

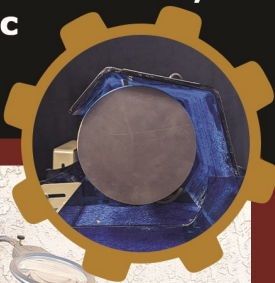

METALSMITHING

CARVING & DRILLING

Option 1

Grinding, Sanding & Polishing

Use both sides of the arbor for grinding, sanding, and polishing. The moveable brass sprayer easily switches to the wheel in use. Plus, use a magnetic attachment for a flat lap.

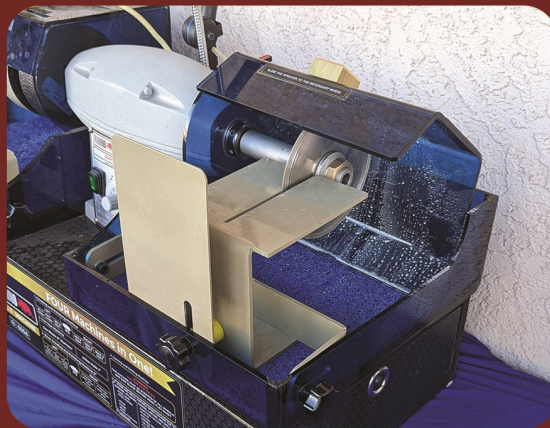

The right side can switch to a 6" trim saw.

Option 2

Trim Saw

Option 3

Metalsmithing

This setup for the silver or metal worker has attachments for sanding and polishing metals.

The flexible arm shaft has attachments for carving and metalsmithing.

Option 4

Carving & Drilling
